

## Notes

i. What does this diagram mean to you and your life right now.

ii. What actions steps will you take for this month to make you more financially free i.e. to accumulate more assets that produce income. It could be something very simple like getting a better rate on your deposits. Also did you know that if the loan to asset value on your mortgage has reduced below a certain level you may be able to avail of a lower interest rate.

iii. Critically Analyse your current assets to determine what income they are producing. Ask yourself how can this situation be improved? Remember it is what is today. It matters little how much something was worth five years ago. What matters is that you are getting the most out of that assets today.

*For example*

### Income Producing Assets

	<b>Income Provided</b>	<b>Costs (including tax)</b>	<b>Profit</b>
Assets			
Total	<hr/> <hr/>	<hr/> <hr/>	<hr/> <hr/>
